- 4 Way power tapping
- 2m connection cable with steel core
- Meets the IP55 standards
- High-fidelity music reproduction

► Applications

- Indoor and outdoor applications
- Swimmingpools
- Athletics fields
- Announcements

The ASP20 is AUDAC's spherical speaker.

This full range sphere speaker was specially designed to provide high-quality sound with a 360° horizontal coverage in a variety of in- and outdoor applications.

Because of the 360° horizontal coverage, the wide dispersion will be perfect for big, open area's like swimmingpools and athletic fields.

Its wide, smooth frequency response and high efficiency ensure high-fidelity music reproduction and intelligible speech at very low distortion.

The housing is made of strong, white ABS material and is moisture and UV resistant.

As a standard safety measure, this speaker is equipped with a 2m long connection cable with a steel core inside.

The ASP20 can be used in a 100V PA system with tapping for 20W, 10W, 5W or 2.5W.

The ASP20 is designed as a modern looking and lightweight speaker that will seamlessly blend into any environment.

This hanging sphere speaker meets the IP55 standards and is therefore suitable for spaces where humidity is present.

► Specifications

SYSTEM SPECIFICATIONS	
Max. power at 100V	30 W
RMS power at 100V	20 W
Frequency response -3dB	80 Hz - 18 kHz
Sound pressure 1 W / 1m	99 dB
Sound pressure max W / 1m	103 dB
Line transformer power tapings	20 W/500 Ohm 10 W/1000 Ohm 5 W/2000 Ohm 2,5 W/4000 Ohm
IP Rating	55
Horizontal coverage	360°
PRODUCT FEATURES	
Dimensions (Diameter)	Ø 254 mm
Length connection cable	2 m
Weight net	2.95 Kg
Drivers	8"
Construction	ABS material (waterproof)
Colour	White
SHIPPING & ORDERING	
Packaging	Carton box
Shipping weight & volume	3.25 Kg - 0.0312 Cbm
